Re: Notice of Oral Ex Parte Communication
ET Docket No. 06-10

Dear Ms. Dortch:

This is to notify you, pursuant to Section 1.1206 of the Commission's Rules that Jay Bradbury on behalf of Duke Power; Jay Birnbaum on behalf of Current Technologies, and myself on behalf of the United Power Line Council (UPLC), met today with Jeremy Miller, William Kehoe III, and Adam I. Kirschenbaum of the Wireline Competition Bureau to discuss issues related to the above-referenced proceeding.

The meeting addressed issues with regard to UPLC's pending petition for declaratory ruling that BPL-enabled Internet service is an interstate information service. UPLC reiterated its position that BPL should be declared an information service, and that the Commission should act on its petition to remove any uncertainty now, as BPL is beginning wide-scale commercial rollout. The UPLC also explained the technology, the business models and the applications for BPL systems and services.

If there are any questions concerning this matter, please contact the undersigned directly.

Very truly yours,

Brett Kilbourne

Brett Kilbourne
Director of Regulatory Services
